Democratic Nominee Listed for Six Speeches In West

OPENING ADDRESS SET FOR SEPT. 16

Omaha Selected As City To Hear Democratic Chief Start Drive

New York, Sept. 7.—Governor Al Smith will personally blaze the trail of the Democratic presidential campaign for the pivotal and debatable vote of the great agricultural region.

Two weeks' invasion of the corn belt, with stops in states and speeches in six, comprise the program for the Democratic nominee's drive upon the nationally Republican agrarian regions.

Leaving New York state on his campaign special Sunday, Sept. 16, Governor Smith will arrive in Chicago Monday, stopping only for a night of his special train, he will continue to Omaha for the first speech of his campaign on Tuesday. The itinerary beyond, follows:

Thursday, September 20, Oklahoma City.

Friday, September 22, Denver.

Saturday, September 24, Helena, Montana.

Thursday, September 27, Minneapolis, Minn.

Saturday, September 29, Milwaukee, Wis.

From Milwaukee Governor Smith will travel to Rochester, N. Y., where he is expected to address the Democratic state convention, Oct. 1.

There will be no rear platform speeches according to Senator Charles Tyding of Maryland, who, as chief of the national speakers' bureau, has arranged the details of the governor's itinerary. But there may be frequent stops, with platform appearances, especially before the Mississippi.

Gov. N. Y. Sept. 7.—Gov. Al Smith decided to open his campaign with a speech in Omaha on September 18, and to follow it up with a two week's intensive tour of the region west of the Mississippi as the result of several weeks of political study on the part of the Democratic "best minds" who are directing his candidacy.

But of the Mississippi Republican leaders have asserted that Governor Smith will not carry a single state. The decision to have the governor's opening gun in Omaha, a veritable heart of the grain belt, was to follow it with speeches in Oklahoma City, Denver, Helena, (Continued on Page 4)

WHO POSSE IN BANDIT BATTLE

Officials Believe One Of Gang Sustained Wounds During Encounter

Chas. O. Sept. 7.—Preliminary southwestern Ohio authorities are searching for four bandits, one or more of them probably seriously wounded, following the battle between them and a posse, late last night and today. The bandits escaped kidnapping Patrolman Andrew Smith, 35, and robbing a department store of a quantity of clothing.

According to reports, the suspicion of Wright came at midnight, when they appeared at a filling station. As they attempted to question them, they attacked him. He was gassed and gagged. Four patrolmen from town, Wright said he escaped from the rear of the car, and they way back to Eaton when the car was notified.

After a short search the county posse found the bandits at the store where a gun battle ensued with the county men trailing them south toward Middleburg.

Three whole days Jane Cowl (left), one of the world's greatest actresses, and Mme. When they chanced to meet on a Chicago railway platform they embraced and had a spirited chat. Shortly before this picture was taken the madame smiled, saying: "And now they want our pictures . . . you so young and beautiful and I so old and ugly."

Prohibition Agents Warned To Take No Political Stand

Dry Force Now Controlled Under Civil Service Rule Which Does Not Permit Employees To Aid Office Seekers

Washington, Sept. 7.—Prohibition executives and agents were warned today by Assistant Secretary of the Treasury Seymour Lowman to keep out of politics during the presidential campaign.

Lowman dispatched telegraphic instructions to all administrators calling their attention to the fact that the dry bureau is under civil service regulations, which prohibits political activity.

The 1928 campaign marks the first pre-election fight in which federal prohibition officials and agents have not taken an active part in politics. In former campaigns the dry agents owed their appointment to politics and in many cases enforcement operations virtually were suspended during the election battles.

Lowman's warning was supplemented by the civil service commission which also notified prohibition employees that they must devote their entire attention to enforcement and that while they may vote, their political activities must be confined to just that.

Similar instructions were sent to the coast guard and customs service.

Specific treasury regulations provided that "an officer shall not use his official authority to influence or coerce the political act of any person or body."

"An officer who spends a portion of his time talking politics is neglecting his work and engaging in political activity which will not be tolerated in the bureau," the administrator said.

MURDER CHARGE FILED AGAINST CANTON WOMAN

Coroner Expresses Doubt That Story of Death Is True

GIRL FOUND IN DITCH AT HOME

Claims Stepdaughter Was Shoved Into Water; Held For Trial

Canton, Sept. 7.—A formal charge of first degree murder was filed today against Mrs. Mike Evanovich, 30, who has confessed that she killed her eight-year-old stepdaughter, Dorothy.

The charge was filed by Coroner T. C. McQuate with Justice Donald Smyth. After arraignment, Mrs. Evanovich will be held for the county grand jury, which meets the latter part of the month.

The woman has confessed that she pushed the child into a ditch near her home at Elton, after a quarrel over some stray cows which the girl had been sent out to find last Sunday morning. The body was discovered by a neighbor, all but the head covered by water in the ditch.

Coroner McQuate believes, contrary to the stepmother's confession, that the little girl was beaten to death some distance away and her body carried to the point where it was found. Death, he says, was caused by a blow on the head. Mike Evanovich, the father, was arrested during an inquest yesterday and is held as a material witness in the case.

WATSON SCORES DEMOCRATS IN MAINE SPEECH

Platform of Party Subject Of Hot Criticism By Indiana Man

Lakewood, Me. Sept. 7.—Sen. James E. Watson of Indiana, left here today to continue his statewide attack upon the Democratic party, after a bitter arraignment of that party's platform at a rally here last night. The Indianan predicted only strife for the Democratic legislative representation should the party be successful in November.

"If the Democratic party be given power at the November election, how could it ever enforce its platform, the patchwork, this crazy quilt?" inquired the senator.

"It is now manifest to anyone familiar with legislative procedure that the votaries of democracy in the two houses, in the event of success, would be at once divided into all sorts of warring groups and split into all kinds of contending factions," he continued; "each pointing to some plank in the platform to justify its position and all ending in confusion."

Senator Watson also discussed the temperance issue and urged his hearers to vote on that question Monday and set an example on the issue first originated in Maine.

"If you cast your own child out for booze what shall the rest of us do?" Senator Watson asked.

Uncle Sam Bidding For \$525,000,000

Washington, Sept. 7.—Uncle Sam made the highest bid for money today since 1921.

A \$525,000,000 nine-months issue of securities was offered at an interest rate of 4 1/2 per cent, compared to a 3 3/4 per cent offering a month ago and the average rate of 3.96 per cent on the entire public debt of nearly \$18,000,000,000.

Secretary of the Treasury Mellon carried out his announced policy of bidding for money at approximately the rate which must be paid by the public. In 1921 there were issues at 5 1/2 and 5 3/4.

BANDIT KILLED IN ATTEMPTED BANK ROBBERY

Officer Fires Fatal Shot; Police Searching For Accomplices

Dayton, Sept. 7.—A bandit was killed here this afternoon when he attempted to hold up the North Dayton branch of the Dayton Savings and Trust company, here.

The gunman walked into the bank during the noon hour and issued his "hands up" command.

Patrolman Edward Boehner, who was in the bank fired upon the man who dropped dead in his tracks.

Police are searching for the dead man's possible accomplices.

Today's frustrated bank robbery recalls the successful holdup of the same institution about five years ago by Fred Nichols, local contractor, now serving a term in the Ohio penitentiary at Columbus.

Nichols, who was reputed to have amassed a fortune of over a million dollars in government contracts during the World war, suffered financial reverses and in an attempt to recoup his losses, held up and looted the bank, making his getaway with \$25,000 in cash.

Ten days later the contractor was arrested and confessed the holdup. All of the missing money was recovered.

Nichols was tried and convicted and sentenced to a long term in the penitentiary.

Nichols' plea for a pardon was granted six months ago by Governor Donahay and he was released from prison at that time.

TURNER FILES SUIT AGAINST ASHTABULA MAN

Unsuccessful Candidate For U. S. Senator Is Attack Object

EXPENSE REPORT GIVEN AS REASON

Question Arises To Right Of State To Question National Candidate

Columbus, Sept. 7.—The question whether the Ohio corrupt practices act applies to candidates for United States senator is involved in a suit filed here today by Attorney General Edward C. Turner against former Mayor H. D. Cook, Ashtabula.

Cook was an unsuccessful candidate for the Republican nomination for U. S. senator, unexpected term, at the state-wide primary election Aug. 14.

In a petition filed with Common Pleas Judge Dana Reynolds, Turner charged that Cook's statement, filed with Secretary of State Clarence J. Brown, relative to his campaign expenses was "incomplete." The attorney general asked the court to require Cook to file "a complete and true" statement. Hearing was set for a m. September 14, in the Franklin county common pleas court.

Cook's statement declared that \$5,699.38 was spent for "newspaper advertising, cards and cuts." Turner, in his petition, contended that the statement was "incomplete" because it "did not detail funds spent and does not show the specific nature of each item, the purpose for which, the place where the date when, and the persons to whom expenditures were made."

Turner argued that the Ohio corrupt practices act applies with equal force to candidates for U. S. senator and all other candidates on state tickets at a primary election, although the law was enacted at a time when U. S. senators were elected by the Ohio legislature instead of at the polls.

Turner tells reasons.

In support of his contention, the attorney general cited the decision of the United States supreme court in the case of former U. S. Senator Truman Newberry, Michigan. This opinion, it was stated, recognized the right of each state to regulate its own primary elections.

Turner directed attention to the following statement contained in the U. S. supreme court's decision in the Newberry case: "The state may suppress whatever evils may be incident to a primary or convention."

Newberry, it was stated, appealed to the U. S. supreme court from the judgment of the federal court in Michigan which had adjudged him guilty of violating the federal corrupt practices act in that he was alleged to have spent more money in his campaign for the U. S. senatorship than was allowed by the laws of Michigan. The U. S. supreme court held the federal act under which Newberry had been prosecuted invalid, it was said.

MANUFACTURER CITES REASONS FOR STATEMENT

Calls Republican Nominee Child of Destiny; Lauds Attitude

INDUSTRIAL ERA COMING, HE SAYS

Qualifications Rate Former Secretary as Logical Leader, Claim

Detroit, Mich., Sept. 7.—Herbert Hoover is a child of Destiny, Henry Ford declared today in an interview advocating the Republican nominee's candidacy.

Declaring the world is entering a new age, "the industrial and more comfortable age," Ford said the country needs a president equipped to handle the problems of the new day.

"The country has become more than a group of governmental offices. It is a great and growing social and productive power and it needs a man who knows how to make the material world serve the social world. It is not enough for him to desire this, but to know how to go about it. Hoover knows."

Discusses Prohibition

"Prohibition is here to stay, no matter who is elected president. "People do not consider prohibition the issue in this campaign—they settled that issue long ago—what they are thinking about is a president best fitted to deal with the problems that will confront the chief executive in this new age—what I call the industrial and more comfortable age."

Herbert Hoover has been heading toward the presidency for a good many years—but he didn't know it. Parties may pick the candidates but Destiny picks the presidents. It is nothing against a man if he is not the choice of Destiny; but if he is, then he has his job cut out for him. The presidency is not an "honor" but a job. A mere political president is like a mere oratorical president—he is not necessary any longer. He is out of date."

Must Begin Early

"To fulfill his part in the national plan, a man has to begin pretty far back. Hoover began 35 years ago when he became an engineer. The country has become more than a group of governmental offices. It is a great and growing social and productive power and it needs a man who knows how to make the material world serve the social world. It is not enough for him to desire this, but to know how to go about it. He knows what people mean when they talk about these things," Ford declared.

HOSPITAL MAY HOLD BANDIT

Man Asking Treatment Is Partially Identified As Robber

Cleveland, Sept. 7.—The bandit whose attempted holdup of Oscar Talchau's fur shop here yesterday was frustrated when Talchau rushed him, kicking him in the stomach, was believed to be the man in Lutheran hospital here today, who is reported critically injured with bruises to the abdomen.

The injured man was taken to the hospital shortly after the attempted holdup by another man who left without giving hospital officials his name.

When the bandit entered Talchau's shop yesterday, the proprietor and three employees were forced to pile about \$30,000 worth of furs on the counter. They were then instructed to enter a safety vault. Talchau, fearing they would be suffocated, rushed the robber, who fired two shots at him, one of which missed him so nearly that it left a powder burn on his cheek.

Toledo police are checking the license number of the automobile in which the gunman fled to ascertain the correctness of the theory of local officials that the gunman is a Toledo underworld character and former associate of "Big Jim" Morton, now serving time in the Ohio penitentiary.

Talchau went to Lutheran hospital last night and said he believed the injured man was the bandit who attempted to hold up his shop. Hospital attaches said an operation would be necessary to save his life.

TIME ALONE WILL TELL

What if they had outlawed war prior to 1776?

War has not always been a thing to be unqualifiedly despised. It has sometimes been the only effective means for the righting of gross political wrongs.

Of course it is apparent now that, as circumstances have developed in these latter days, there are much better ways of settling disputes. Still there are nations today held in subjection to powers for whom they have no loyalty or respect, and one wonders how they can expect to set themselves free without resort to arms.

Had there been a just settlement of boundaries in the Versailles treaty there would be no argument at all against the Kellogg pact to outlaw war. As it is, some of the oppressed peoples are sure to raise loud protests. They are apt to regard the treaty as an instrument for barring the door to their hope for future delivery.

The great thing about the treaty, though, is that it is, in theory, at least, a moral achievement. When 15 of the world powers sit down and formally renounce the oldest implement of policy among nations, that is, naturally, a portentous event, which will lay a great responsibility upon tomorrow's statecraft.

The will for peace has been impressively manifested. It is an occasion for rejoicing. But whether that can be most effectively expressed by nations which do not choose to dissolve their earlier engagements, under the treaties of Versailles and Locarno, remains to be determined.

WOMEN IN POLITICS

At this time an interesting discussion is being carried on concerning the part women voters are to play in deciding the November election, speculation mostly being devoted to the number in which they will attend the polls.

In this connection it might be pointed out that if the woman vote is at all proportional to the active campaign work women are doing in each of the major parties, it will be a tremendous one. And the women are filling many important positions on committees for both the Republican and Democratic parties.

There is in illustration the case of New York state, where the unusual situation is found of women heading both the Democratic and Republican state committees. The sudden death at the age of 45 of George K. Morris, chairman of the Republican state committee there, placed Miss Sarah Schuyler Butler as titular head. She is the daughter of Nicholas Murray Butler, head of Columbia university.

Again, in the case of the Democrats, the state chairmanship in New York became vacant through the resignation of Lieutenant-Governor Edwin Corning by reason of ill health. Which results in Mrs. Caroline O'Day, the vice-chairman, becoming active chairman.

Women, so it seems, are performing much of the active work of this campaign in many of the states. This would appear to warrant the impression they like politics, new as it is to most of them, and that they are likely to vote in proportionately larger percentages than the men do.

DON'T WORRY ABOUT HIGH BLOOD PRESSURE

By Royal S. Copeland, M. D.
United States Senator from New York, Former Commissioner of Health, New York City

Here comes a letter from Florida, asking for an article on high blood pressure. This is one of the permanent symptoms of worry. Nobody can long resist the evil effects of steady worry. Sometimes high blood pressure is one of its chief effects.

DR. COPELAND

Then, when there is added to the original cause of worry the fear of high blood pressure, we are dealing with a bad combination. Unfortunately, there is widespread anxiety over this symptom. Too many persons have come to believe that it leads to other diseases and, on the whole, it leads to unhappiness. So everybody dreads it.

Hardening of the arteries is one of the most important causes for increased blood pressure. Of this condition a great doctor has said it is "like gray hair, with which, but not because of which, we die."

If you will remember this, you will have no terror of hardened arteries and high blood pressure. They are merely symptoms of advancing years, just as gray hair is. Of course, some old people do not grow gray and some preserve soft arteries and youthful blood pressure. But such persons are the exception.

It is said a man is as old as his arteries. As we grow old our blood vessels are likely to get harder. We are not unlike vegetables after all; we get tough as we grow old.

Of course, hardened arteries and high blood pressure may become the cause of disease, and more or less serious trouble. It depends on what part of the organ of the body becomes affected.

But Nature is kind. Almost always she gives us warning by sending a mild attack or two before there is any real menace to life or usefulness. Many a person has had hardened arteries and high blood pressure for fifty years and never suffered a single moment because of them.

The Stars Say—

For Saturday, Sept. 8.

By GENEVIEVE KEMBLE.

A DAY of intriguing situations and experiences may be foretold from the fairly baffling and conflicting stellar operations. Although there is some encouragement for new ventures and the finances have some degree of assistance from Jupiter, there is sign of a sudden disruption, with portent of fraud and trickery, affecting business as well as personal relations. The latter are especially beset and need safeguarding. Sign all writings with particular caution.

Those whose birthday it is may anticipate a year of conflicting and confusing issues, reacting on both personal and business affiliations. New ventures may receive encouragement and the finances may slightly prosper, but in all things guard against treachery and fraud, signing all writings cautiously. A child born on this day may require the most rigorous education and discipline to instill high principles of responsibility and honor. Its career may be spectacular.

The same diversity of character exists in the elements that make the atmosphere, the clouds, or fill the celestial spaces.—Ada Muir.

Diet of the wrong sort may be a factor in the production of hardened arteries. Great eaters, not only of meat, but of all other foods, are apt to have this trouble. This is particularly true if obstinate and chronic constipation exists.

If a careful physical examination shows that the blood vessels of the brain, heart or kidneys are hardened and at the same time the blood pressure is unduly high, it is well to be careful. You should lead such a life as not to throw sudden strain upon the vessels which might break. Under such circumstances, gentle exercise, the avoidance of violent outbursts of anger and other emotions, temperance in eating and drinking, are indicated. Overexertion, fatigue, worry and loss of sleep are to be avoided.

Even if your blood pressure is high and your arteries are hard, do not give up your work, whatever it is. Go forward, confident that sensible living will do you no harm. No man need worry a moment if his manner of living is properly regulated.

LOANS up to \$500

The harvest is about over—the days are getting shorter—the presidential nominees have accepted and the race is on. Which all goes to remind us that we haven't our winter's supply of coal in yet. "Wotta life!" It's just one blamé expense right after another.

Some folks say that it's a good thing to have expenses and debts otherwise we wouldn't have much of anything to work for. And maybe that's true, but just the same when you do have a sudden expense, keep in mind that any member of your family can readily arrange for a loan at The City Loan to meet it. The City Loan does not encourage borrowing for the sake of owing but it does advocate organizing your bills and expenses if you have any.

BELLAIRE OWES STATE TREASURY

Dry Law Fines Subject of Claim Made by Ohio Officials

Columbus, Sept. 7.—That the city of Bellaire owed the state treasury \$500 as the state's share of fines collected from violators of state dry laws was the claim made in a report, made public today by State Auditor Joseph Tracy, relative to an examination of city offices at Bellaire.

The report was submitted by State Examiner Walter C. Jones and covered his investigation of Bellaire city records for the period from May 26, 1925, to Jan. 23, last.

Findings for recovery totaled \$906.72. The report declared the city owed the Belmont county treasury \$120 as the county's share of fines collected in state cases.

Other findings for recovery constituted various small amounts attributed, for the most part, to errors in deposits, salaries, invoices, and water bills.

FISH HATCHERY DISCONTINUED

Columbus, Sept. 7.—Abandonment of the state fish hatchery site in Seneca county, was revealed here today, by D. O. Thompson, chief of the Division of Fish and Game, in Ohio as the amount of water, is insufficient for the requirements of a successful hatchery.

Action is to be taken on the proposed site in Hancock county, within the near future, Thompson stated.

Hungarian partridges totaling 4000, have been purchased and are to be delivered Dec. 1, and will be distributed for propagation purposes while the 200 pairs of deer purchased from Pennsylvania, will be delivered as the division finds best for their welfare, according to Thompson.

Movie Strike Off; Agreement Reached

Chicago, Sept. 7.—An agreement was reached today between the musicians union and the motion picture exhibitors association after a 21-day strike.

This means there will be no shut-down of Chicago theaters as the result of a strike.

The final compromise consisted of distributing 65 extra weeks of employment for members of the musicians' union among five theaters.

AL SMITH

(Continued From Page One)

Mont., Minneapolis and Milwaukee, represents the Democratic challenge to this Republican claim.

Minnesota, while normally heavily Republican, is not a secure for the G. O. P., in the opinion of Democratic leaders. In this state the farm vote is most pronounced and will undoubtedly have a marked effect on how the state will go. Then, too, it is recalled that Woodrow Wilson carried Minnesota in 1916.

Wisconsin, while Republican, is hardly Republican from the administration standpoint. LaFollette has long held control in Wisconsin. Democratic hopes of carrying the state are high because of the LaFollette vote and the wet vote which is preponderant in Milwaukee.

Montana, which has sent Walsh and Wheeler to the U. S. senate, is regarded as normally Democratic.

Smith's visit to the state is expected to have its effect in holding the state in line.

BLAZE THROWS 200 FROM WORK

Sandusky rubber Concern Suffers Fire Loss; Insurance Covers

Sandusky, Sept. 7.—More than 200 employees of the Barr Rubber Products company were idle today as a result of the spectacular, \$250,000 fire which destroyed the company's plant here last night. The loss is said to be covered by insurance.

Fire departments from Fremont and Norwalk were rushed here to help check the flames, which for a time threatened to spread to nearby rooming houses and manufacturing concerns.

Millions of toy balloons and other rubber novelties were destroyed. Several small tanks of naphtha and other chemicals exploded, sending out showers of flame. A number of small fires in the vicinity resulted but these were quickly extinguished by spectators and firemen.

One employee of the company was overcome by smoke. Rebuilding of the plant will begin as soon as insurance adjustments are made, according to Nelson Barr, president.

The company, a former Lorain, O., concern, moved here five years ago.

The fourth Byrd plane, made by the General Airplane company, and which has not yet been given a name, will be taken to Anacostia later.

Cincinnati, Sept. 7.—What is declared to have been a genuine case of death caused by grief was reported here today by Coroner Fred C. Swing, in his finding regarding the sudden passing of Mrs. Margaret Wohlfiel, 78, here yesterday.

Last week, her husband, John Wohlfiel, 79, died in the home of a daughter where the aged couple had been making their home.

The Logan county grand jury ignored four counts placed against the man, indicating that it believed Warwick's story of self defense.

Radio Corp. jumped 3/4 to 22 1/2. Purdy Bak. Corp. up 1/2 at 117. General Electric up 1/2 at 167 1/2, and Westinghouse up 1/2 at 100 1/2.

Bears in the stock market received a severe shaking up today when the market favorites were driven up 5 to 20 points in the first half hour by a victorious bull. The pace of the market was rapid and furious in this period, with speculative interest centered most in the mercantile stocks and utilities.

Monetary Ward's spectacular jump in as many minutes as a feature of the opening. The stock rushed up to 242 1/2. The stock over themselves tumbled over the harassed bears. The stock in this stock is operated from Chicago, and the forward movement from the low price of 117 has been rapid and sensational.

United States Steel sold above 157, the highest price of the year and 3 1/2 points below the highest price in history. Other star performers were Sears, Roebuck, Briggs Manufacturing, Curtiss Aero and the Film.

Sky-rocketing tendencies of high-priced industrial and specialty stocks were again on exhibition. Wall street worked itself up into a spirit of uncontrolled speculative enthusiasm when brokers loan exhibition was reported at the paltry price of \$4,000,000 instead of the \$10,000,000 more or less, than had been expected. The bulls plunged in wildly and the bears received another painful drubbing.

The stock tape ran 19 minutes behind the market in the first hour, during which time the Motor stocks and Industrials received one of the most aggressive chummings of the year. The professionals were active on the buying side of the market, while profit-making was reported principally from the outside trading points. Realizing sales were easily absorbed in the first hour, and the market in many departments was ready to proceed with the advance. Some buying of the Investment Oils was in evidence, as was on the scale noted in the early days.

The call loan rate declined to 7 1/2 per cent for week end loans. Funds were in good supply and light demand. The commodity markets were irregular, with grain prices fractionally lower and cotton fluctuating in a narrow range.

KOLSTER RADIO

¶ Neither great men nor great products require a long story about their virtues. ¶ Their very manner of existence and daily accomplishments tell all that the onlooker needs for appreciation and endorsement. ¶ Certain automobiles, for example, have won such confidence that no high-pressure selling is required. Their makers know that all the world would own them. ¶ And so with Kolster Radio. Such faithfulness in tone quality, such extraordinary selectivity and such distinguished appearance have created, by their presence in thousands of homes in every state in the Union, a powerful structure of confidence within the public mind. ¶ Glowing praise is irrelevant when this exists. It is enough to hear on all sides the quiet remark:

our Choice—Why?

Being the Pioneer Radio Store of Salem and always handling the largest and most complete stock, we have learned through our experience, that it is the best policy to handle only Quality Radio. We have in the past months had offers of exclusive franchises on Atwater Kent, Majestic, Crosley, Philco, Ever-Ready, and several other makes of Radio, but we have decided that we would become

dealers, having the experience of the past on cheaper radio.

When Commander Byrd selects Kolster radio receivers, Kolster head sets in all their helmets and his two ships are equipped with Kolster radio compasses; like the Leviathan, the greatest floating palace, just equipped with Kolster radio compass; when we see Kolster quality leading in all directions, we certainly think we have made the best selection by becoming 100% Kolster.

CLEVELAND AIR CRASH FATAL

Two Prominent Fliers Die In Fall Near City's Airport

Cleveland, Sept. 7.—The bodies of the two men, killed in an airplane crash near the municipal airport here yesterday, lay in an undertaking establishment today, while relatives in Detroit and North Carolina were completing funeral arrangements.

The victims were: Lieut. George Stowell, 23, of Detroit, former army aviator, and recognized as one of the best pilots in the country; and J. C. Merriman, 26, of Draper, N. C., who came here about two months ago. Stowell was a pilot for the Cleveland-Detroit passenger line of the Stout Air Service, while Merriman was the company's assistant traffic representative at the airport.

Izaak Waltons Ask Havens for Birdlife

Chicago, Sept. 7.—A plea for golf clubs to set aside their "roughs" as bird refuges, the water hazards as wild fowl sanctuaries, and to stock their creeks with fish, has been made by Seth E. Gordon, conservation director of the Izaak Walton League of America.

"Although anglers and hunters can do little to assist golfers, unless they can help to rescue lost balls from the creek bottoms, it is within the power of the golfing fraternity to render real assistance to their brother sportsman by following this suggestion," Mr. Gordon said.

The plan has been tried by one large golf club near Chicago, on the water hazards of which numbers of wild fowl have bred and find refuge, thus increasing the sport of the hunters on nearby marshes.

Salem Sandlot Gridders Organize For Campaign This Fall

Joe Kelley Named As Manager-Coach; New Playing Field Listed

With the announcement by E. H. Althouse that construction of a new athletic field would be started Monday, Joe M. Kelley, manager and coach of the Althouse Studebaker football aggregation today issued the first call for a meeting of candidates for Salem's only professional football team.

Kelley, business and booking manager and coach of Salem athletic teams for years, was today re-appointed manager and coach of the Studebakers by Althouse. Immediately following his appointment, Kelley called a meeting of all men in Salem and vicinity wishing to enter competition for berths on the team roster at the Memorial building at 7:30 p. m. Tuesday.

Althouse today also announced that he had completed plans for the construction of a new athletic field two miles west of Salem, on the Salem Alliance rd., state route 19, where he has purchased a 10-acre field especially for the purpose. Work on the field, he said, will start Monday, when contractors will start grading the field. A fence will be around the gridiron.

Althouse plans this year to place on the field one of the classiest foot-cuts in the history of the game in this city, and will play nearly all in the new stadium.

The field will not be limited to use during football season, as the locker of the Studebaker team hopes to install a baseball diamond.

Seeds Named Captain Rainfall Halts Pennant Drive In American

Twins Seeds was named acting captain of the Studebaker team by Kelley. Seeds captained last year's aggregation, and has had grid experience at Iowa State college, Ohio State, with the Toronto Tigers and Arnold Bulldogs.

Arnold Seeds, Paul "Mex" Harrington, Les Older, Cecil Scullion, Joe Little, George "Pie" Baillie, Chris Zelle, Bus Jones, Chris Roeser, Herman "Legs" Litty, Jim Lee, John, Pete and Mike Sartick, Greg Corso, Frank Corso, John Hope, Jim Smith, Dowd brothers, and Boot Hawkins are the grid prospects from Salem and vicinity named by Kelley as men desired at the meeting Tuesday night. The presence of any other player wishing to go out for the team would be appreciated, he states.

Each of the men listed by Kelley are well known to football fans of this section of Ohio. Arnold Seeds, last year's team captain, was named as high player making many long runs and touchdowns during the season. Weighing only about 150, Seeds was rated as one of the best halfbacks in the history of the school.

Chris Zelle, known as the "grand old man" of Salem football, will be back at a guard or tackle position. He has seen more than 15 years of football. George "Pie" Baillie, another vet will be seen at center or guard. Cecil Scullion, who last year was developed into an outstanding center is the favored candidate for that post. Ends will be: Jim Lee, Les Older, Kenyon Jones, star, Herman Litty, and Mike Sartick; backs, Seeds brothers, Jim Lee, Pete and John Sartick, Boot Hawkins, and Chris Roeser. Linebackers rated as prospects are Smith, Harrington, Corso brothers, Older, Harrington, and Pete Litty.

Kelley hopes this year to add Les Older to the lineup. Older last year was placed on the All-Salem High school team as tackle, and captained the 1926 team when Salem High went through the season undefeated. Several other men are being lined up by Althouse.

BOXING'S GOLDEN DAYS DISAPPEAR

BY DAVIS J. WALSH

New York, September 7.—Boxing, greatest of all sports during the rapidly expiring golden age of sport, is entering its inevitable era of re-adjustment in which fighters, no matter who they are, will be paid strictly according to their value and fights, no matter what they are, will be well to retail their choicest seats at better than \$15.

Billy Gibson, soldier of fortune for 25 years in a game in which sniping never knows a closed season, thus served warning on the Loughrans, Sharkeys, Hansens, Risks, Heeneys and others who seek the vacated heavyweight championship and the pot of gold supposedly at Rainbow's end. The pot still is there, but he thinks the gold has turned to brass and mostly knuckles, at that.

Richard Ahead

The last fortune has been made by the Rickards, the Kearnses and other overnight opportunists. Gibson avers. The last big purse has been offered; the last big gate achieved. There may be another million dollar house but Gibson doesn't expect to see it.

That phenomenon of American madness died with Dempsey, in the opinion of this boxing man who made and re-made successive fortunes in his "racket" and finally produced champions in two major classes in such a manner as to make them appear greater than they really were.

Million In Memory

"I think the million dollar gate is only a memory now because it isn't reasonable to look for a return of the circumstances that made it possible," Gibson declared. "In the first place, we had Dempsey, an unusual man.

He combined great showmanship with an ability to fight and you don't get many like that. In the second place, he appeared during an unusual period—right after the war when the public had become accustomed to paying big prices and had the money to pay them. Too. It would be a miracle to get another such man as Dempsey at another such time; and I feel that only a combination of the three—a great showman, a great fighter and a period of great prosperity—could bring back the million dollar matches.

"Sullivan was the last great champion of the Dempsey type. But he wasn't fortunate enough to live in such an era. Jeffries was popular but he wasn't a showman. Perhaps, if we could get another Sullivan, another Dempsey or even another Jeffries in the next year or so, we might have another flurry in high finance. For that sort of thing doesn't die abruptly. It passes out gradually but, once having passed, it is gone for good."

Persons who want anything know that The News is the Want Medium in this vicinity. So read it.

Wesleyan Practice Opens September 12

Delaware, O., Sept. 7.—First call for football candidates at Ohio Wesleyan university was issued here today by Coach George Gauthier. The pigskin toters are to report for practice on the morning of Wednesday, Sept. 12, the first day on which practice may be held under the regulations of the Buckeye Athletic conference.

Coach Gauthier expects to have a squad of 50 to 55 varsity football men this fall. Practice will be held twice daily throughout the week prior to the beginning of class work at the university, Sept. 19.

Man Mountain Erickson, Minneapolis, took decision from Charley Wepner, Ridgefield Park, N. J., (4). Marvin Shecter, Boston, heavyweight, won the decision over Marco Polo, Pittsburgh (4).

George Hoffman, New York heavyweight, knocked out Jack Bessimes of Canada (4).

At New Haven, Conn.—Billy Wallace of Cleveland won the decision over Joey Kaufman, New York lightweight (10).

NEW STRIBLING AS CONTENDER AMONG HEAVIES

New York, Sept. 7.—Billy Stribling, of Georgia, has advanced another step in heavyweight ranks today as a result of his victory over Johnny Squires of South Africa in the second round of their bout at Madison Square Gardens last night.

Lou Magnolia, the referee stepped in during the second round and stopped the match to save Squires from a severe drubbing. The South African was outclassed from the start and failed to get in a blow.

The bell saved Squires in the first round after Stribling had floored him twice. At the beginning of the second Squires, groggy, toppled to the mat with the first left hook Stribling landed. The South African arose gamely but Referee Magnolia stopped the bout after 44 seconds of the round.

Stribling weighed in at 181½ and Squires at 184.

MICHIGAN WILL DEDICATE NEW MOUNT STADIUM

Alliance, Sept. 7.—Mount Union college will dedicate its new stadium, Saturday, Oct. 6, when the University of Michigan varsity makes its first appearance in Alliance in the school's history.

The concrete bleachers now being constructed to finish the stadium, and make it one of the finest athletic plants in Ohio, will be completed by October 1, but the Michigan game will be Mount's first home contest.

John Thorpe, Mount grid coach is facing the huge task of replacing Arthur "Pude" Yengling, Salem football star, who graduated last year. Yengling did all of Mount's kicking last year, averaging 45 yards in punting for the season. He was the only senior backfield man to graduate last year.

Mount Union will open its 1928 schedule with Allegheny college at Meadville, Pa., Sept. 29, and meets Michigan at home the following Saturday. Arrangements are already being made to seat the largest crowd which ever attended a college game in Alliance.

Mount's complete schedule is: Sept. 29 Allegheny at Meadville. Oct. 6 Michigan at Alliance. Oct. 13 case at Cleveland. Oct. 20 Wooster at Alliance. Oct. 27 Oberlin at Alliance. Nov. 3 Kenyon at Gambier.

"EASY COME, EASY GO"

Richard Dix is the star in "Easy Come, Easy Go," the feature picture at the State tonight and Saturday. He plays the role of a young American youth, honest and industrious, but temporarily downcast due to the lack of a job whereby he might accumulate some finances to pay his board and clothes bill and purchase some much-needed necessities.

At this crisis in his life he meets a girl and almost simultaneously is unwittingly induced to aid a clever but good-natured crook in a bank robbery. When he discovers what he has done he is in a position which makes restitution difficult and embarrassing, and those persons most interested in the recovery of the money do all in their power to frustrate his good intentions.

Supporting Dix is Nancy Carroll. The show is peculiarly adapted for a Dix Carroll feature and is fast moving production with a distinct note of sympathetic humor.

"PARTNERS IN CRIME"

The theme of "Partners in Crime" at the Grand, is the ever-thrilling one of the law's battle against crooks of the underworld. The locale of the picture is a great American city, torn by crime and cowed by the ruthless savagery of uncontrolled gangsters.

Gangs at War
Even the underworld itself is torn by warfare as the two principal

gangs have launched upon a bloody feud because one of them encroached upon the territory of the other.

Another feud of lesser importance to the terrified citizenry but of extreme importance to the picture is that between Mike Doolan, a well-meaning, but dumb detective and "Scoop" McGee, a sharp-witted and sharper-tongued newspaper reporter. The prize sought in this private warfare is the affection of Marie, a cafe cigarette girl.

Richard Deming, assistant district attorney, adds a triangular link in the chain of desire for Marie. Deming declares war on the underworld and is kidnapped by one of the gangs. Doolan and McGee, thinking the attorney is a relative of Marie, start out to rescue him from the crooks. Complications and breath-taking episodes then come thick and fast.

Mistaken Identity
Wallace Beery takes the part of Mike Doolan, the soft-hearted but thick-headed detective. Raymond Hatton has a dual role. He is "Scoop" McGee, the reporter, and "Knite" Reagan, terror of the underworld. It is around the resemblance between McGee, the reporter, and Reagan, the gangster, that some of the richest comedy incidents of the picture are constructed.

Mary Brian takes the part of Marie and Jack Luden is Richard Deming, the assistant district attorney. William Powell has a strong part as Smith, one of the underworld gang leaders. Albert Roccardi has a good role as Kanell, proprietor of the

restaurant where Marie works, while Arthur Housman and Bruce Gordon take the parts of lieutenants to the gang leaders.

THE HOME KITCHEN

By Jeannette Young Norton

The so-called "made" dishes lend themselves as readily to leftovers as to the fresh foods. Used for summer luncheons and dinners, these dishes are appetizing and may be made quite inexpensive. Also a choice of fish, meat, vegetables and even fruit may form the foundation of the dishes. A few recipes will show the housewife how leftovers may become valuable in this form of cookery.

Pineapple Fish Ramekins
Take two small cupfuls of leftover baked or boiled fish, flake it and remove all skin and bones. Add to the fish a quarter cupful of very dry fine crumbs, pepper, salt, a beaten egg and a half cupful of grated pineapple. Canned will do nicely. Add a heaping tablespoonful of soft butter and a teaspoonful each of minced pepper and celery leaves. Fill buttered ramekins with the mixture; it should fill four large or six small ramekins. Bake 12 minutes.

Liver and Apple Ramekins
Take a pound of calf's liver and boil until tender, then chop it fine. Add two tablespoonfuls of butter, pepper, salt, a small cupful of applesauce, a small cupful of dry crumbs and the juice of a good-sized onion. Fill buttered ramekins with the mixture and bake a delicate brown.

Beef Ramekins
Chop fine, enough cold roast to make a cupful and a half. Add a half cupful of crumbs, pepper, salt, a teaspoonful of sugar, a minced onion, a tablespoonful of chopped pine nuts and a tablespoonful of soft butter. Wipe the inside of the ramekin dish with a cut bud of garlic, then butter it well and put

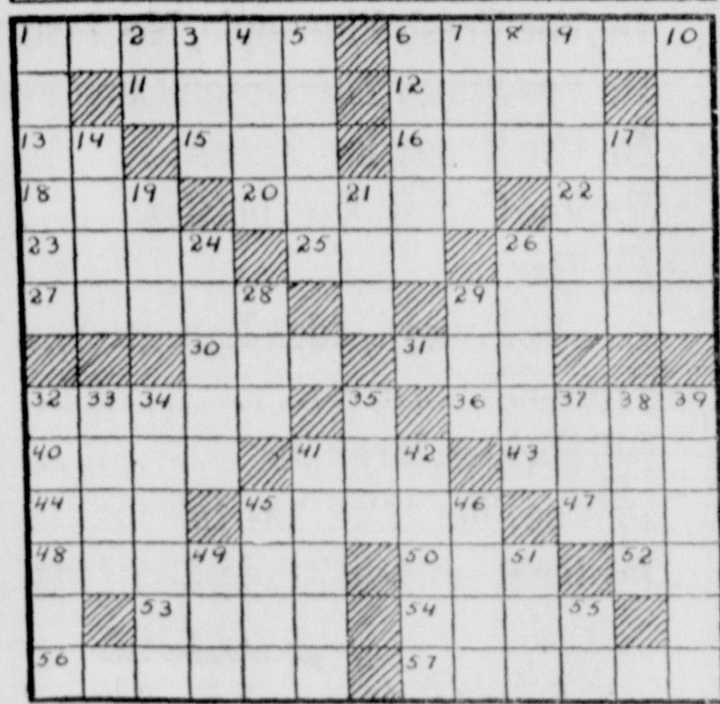

in the mixture. Pour into each dish a tablespoonful of tomato juice. Bake for 12 or 15 minutes, according to the heat of the oven.

Fruit Roll
Make the usual pie pastry, a little richer than for pies, and roll out thin. Stone a cupful of cherries, add a small cupful of cut-up peaches, a small cupful of diced fresh pineapple, a quarter cupful of chopped nuts and a small cupful of sugar. Dissolve a teaspoonful of cornstarch in a little fruit juice and mix with the fruit. Fill the crust and roll it, pinching together on the ends. Make a small vent and insert a paper cone and bake as usual. When done serve with a boiled dressing such as is used on a fruit salad.

Peanut Butter
Mix a cupful of crumbs with a cupful of applesauce, add two tablespoonfuls of peanut butter, a saltspoonful of salt, and the stiffly beaten white of an egg. Fill buttered ramekins with the mixture and put a teaspoonful of cream over the top of each. Bake a delicate brown. This may be used as an entree of a luncheon dish.

Chicken and Mushroom Pie
Left-over fried chicken, or broiled chicken, should be picked from the bones and chopped coarsely. Saute a half pound of fresh mushrooms and add to the meat with enough cream sauce, or brown gravy, to moisten. Season with pepper, salt, a saltspoonful of curry powder, the juice of a large onion and a teaspoonful of minced red pepper. Line individual dishes with crust, then fill with the mixture. Put on the top crusts, having vents in them, and bake until the pastry is a good brown.

THE GUMPS—THE MAD LOVER

STYLE EDICTS

Paris, Sept. 7.—Brown, with a little leaning to grey beige, will certainly be predominant for sports costumes next winter, judging from the smart clothes appearing at the chic French dressmakers these days. A large number of them are in tweeds, but there are also many jersey and kashas, sometimes combined with the tweed. Angora woollens and velours de laine are used with leather belts and linings. Hip-length jackets of fantasy woolen weaves have the blouse of the same material.

Patou is striking a new note with the use of embroidery instead of incrustations of cloth on jersey sweaters and the leather belt is placed a bit higher than last season. Many of his sport costumes are shown with a long, plain strictly tailored coat of the same fabric as the skirt. A very smart one has a long skirt and coat of gray tweed and pearl-gray jumper embroidered all over in motifs of gray wool, with a band of the tweed at the edge and a gray leather belt. Another interesting sport ensemble consists of a circular cape of plaid grey tweed, with a checked background, worn over a skirt of the plaid and reefer of plain checks.

Worth favors red and navy blue for his sports costumes this winter. One in navy-blue and white is especially striking, with the pleated skirt of plain blue and the jumper in wide stripes of two shades of blue. There is an extraordinary ker-

chief in the two colors knotted at the neck.

Cheruit puts little "culottes" of crepe de chine in matching tone under all of her sports costumes, with a narrow band of the woolen material and a row of little buttons at the side.

London—Winston Churchill has been laying bricks for a fortnight with his daughter Sarah, acting as hod carrier. He has been helping to build a home for one of his servants at Westerhaven arrayed in gloves, hat and coat such as a bricklayer never wore in summer.

Billy Sunday Raps
Democratic Nominee

Clifton, Sept. 7.—"I am against
Alfred E. Smith for president of
the United States heart and soul.
He has as much chance to be elect-
ed to the high office as the pope
has of being named the imperial
wizard of the Ku Klux Klan."
Billy Sunday, evangelist, so de-
clared in an address before an au-
dience of 5,000 at the 117th anni-
versary of the founding of the
Presbyterian church here yester-
day afternoon.
The evangelist said in part: "I
am not against Smith because he
is a Democrat; not because he is a
Catholic; but because he is a high
priest in Tammany Hall—Smith
cannot be elected for three reasons
—because he is a Catholic in a
Protestant country; because he is
a wet in a dry country; and be-
cause he is a Tammanyite."
Sunday also attacked Dan Moody,
Carter Glass and Josephus Daniels,
all prominent Democratic leaders,
because of their support of Gov.
Smith, whose "principles are op-
posed to the things for which they
have stood."

Land n.—The Prince of Wales
seems likely to make a big killing
of big game in Africa. By way of
practicing prior to his departure he
shot at a soap box target on the
beach at Fernington-on-the-Sea and
hit the bulls-eye at 100 yards on
his first attempt.
